

Job Description

Composite Technician

As part of NTG Mast Group's service division, RigPro is the only truly global rigging service provider, with an unparalleled ability to deliver engineered solutions on any type of rig and rigging.

Thanks to our global presence and rapid response, RigPro can reach our customers wherever they are, whenever they need us, and we are committed to the top standards of customer care and service.

Your Mission

As a Composite Technician, you will support in the implementation projects and on-site activities in the composites area of RigPro. This involves supporting composite projects of any level of complexity. In addition, you will take part in meetings with customers, suppliers, and other employees of the NTG group that are related to your working area.

Main responsibilities

- Carrying out composite upgrades or repairs with pre-preg and wet laminating techniques
- Careful removal of damaged composite material and preparation works for composite repairs.
- Answering possible questions from customers on issues related to composite repairs and upgrades.
- Assisting project managers in proposing scope and price to customers.
- Supporting in the improvement of standard operating procedures for composite materials.
- Keeping abreast of all project communications with the ability to provide input when required.
- Supporting national and international on-site projects to ensure that equipment, repairs or services are completed on time, to specification and to an acceptable standard of excellence.
- Being able to communicate effectively with all parties involved in the project.
- Assist with the development of the RigPro composite department facilities and processes.

What we need from you

Technical skills:

- Around 3 - 5 years of composite building experience.
- Knowledge and experience of repairing carbon fibre parts & structures.
- Driving licence.

Personal skills:

- You have good communications and interpersonal skills.
- You are a highly motivated person and ethically performance driven.
- You will stay focused and show your organisational skills while working under pressure.
- You are a problem-solving person and will keep a can-do attitude in your daily tasks.
- You will show demonstrable experience with mechanical products.
- You will have the desire to travel and work internationally when required.

What we offer

- For a marine professional in the marine industry nothing beats working at RigPro you will have the opportunity to work on the world's greatest yachts, with some of the world's greatest sailors.
- A number of our team regularly sail in top events like the Superyacht Cup Palma.
- RigPro team members are sometimes seconded to top race teams, including America's Cup teams.
- Being part of the group that leads the way in developing above deck systems for the world's most advanced race yachts, from the America's Cup to the world's most eminent Superyachts.
- You will join the world's most trusted sailing system advisors.
- The possibility of taking part in a variety of projects with opportunities to engage with a global team and client base daily.
- Permanent contract.
- Flexibility to match other commitments and activities... like sailing!

*FUTURE FIBRES RIGGING SYSTEMS, S.L. is committed to the development of policies that integrate equal treatment and opportunities between women and men, and that avoid any type of direct or indirect discrimination based on sex. We promote and encourage measures to ensure that equality is real and effective within our organisation, establishing equal opportunities between women and men as a strategic principle of our Corporate and Human Resources Policy, in accordance with the definition of this principle established in Organic Law 3/2007, of 22 March, for effective equality between women and men.

In each and every one of the areas in which we carry out our activity, from recruitment to hiring, including salary policy, training, working and employment conditions and occupational health, we assume and apply the principle of equal opportunities between women and men. We also promote the organisation of working time to facilitate the reconciliation of personal, family and working life with the aim of improving the quality of life and satisfaction of our staff.

The principles set out above are put into practice through the implementation of an Equality Plan that represents an improvement in our management system and the guarantee of having an internal structure free of gender discrimination. In this way, we also want to contribute to the progress towards a society in which equality is firm, real and effective.
