

At RigPro where Precision Meets Passion

As part of the North Technology Group, we deliver world-leading composite solutions to superyachts, racing teams, and custom yacht builders worldwide.

With expert teams based in Europe and New Zealand, we take pride in delivering top-tier **composite repair, modification, and upgrade services** that keep your Engine Above Deck in peak condition.

From **complex repairs** and **major structural performance upgrades** to mast and boom components, including **locks** and **SATCOM systems**, we combine advanced techniques with expertise to ensure unbeatable durability and performance.

Our specialties include:

- **Performance upgrades:** assessing rigs for suggestions or implementing your ideas with full design reviews for optimal results.
- The only **OEM-approved rigging service provider** for industry-leading mast and rigging brands; Hall Spars, Future Fibres, Southern Spars, Omohundro, Marten Spars, and Nordic Masts.
- Our **in-house engineers** leverage FEA, advanced design tools, and rigorous in-house testing processes to provide custom solutions for all repairs, upgrades, or custom solutions.
