

Expert Rigging Services

Installation, Maintenance, and Repairs, Worldwide.

As part of the North Technology Group, we deliver world-leading rigging solutions to superyachts, racing teams, and custom yachts **worldwide**.

Our expert teams in Europe and New Zealand provide top-tier installation, maintenance, and repair services to keep your rig in peak condition.

- We perform visual and in-depth assessments using OEM recommended inspection protocol and NDT testing - detecting hidden issues for safety and performance.
- We provide proactive maintenance services ranging from Mast Tune adjustments to full refits, repairs and upgrades. Furthermore, through RigPro Cares' real-time monitoring, access your rig's full service history and upcoming recommended actions has never been easier.
- Through our global business locations and service facilities, we can complete rigging works anywhere in the world.

WHAT SETS US APART?

PERFORMANCE UPGRADES:

Our experienced team assess rigs for performance suggestions, capable of implementing your ideas with full in-house engineering and design reviews for optimal results.

ONE-STOP REFIT EXPERTISE:

As the OEM for the worlds leading mast makers, we are the one-stop shop for all your service and rigging refit needs.

EXCLUSIVE ONSITE SERVICES:

As the only provider of onsite Future Fibres services, we install innovative solutions like ECsix rigging and load-sharing technology.

GLOBAL ACTIVITY:

Structured teams are outfitted across the world, in every major superyacht hub ready for a rapid response.

SAFETY & COMPLIANCE:

Lloyd's Register approved for rigging and servicing work.

WORLD-LEADING EXPERTISE:

OEM-trained riggers with decades of experience from elite events like the America's Cup and Grand Prix circuits.
