

RUNNING RIGGING

Elevating Yacht Performance Worldwide.

At RigPro, **precision meets passion.**

As part of the **North Technology Group**, we deliver world-leading running rigging solutions to superyachts, racing teams, and custom yacht builders worldwide.

With expert teams based in **Europe and New Zealand**, we support both new builds and refits, offering tailored systems that improve performance and reliability.

EXPERTISE AT THE HIGHEST LEVEL

Our rigging team brings decades of experience from elite sailing campaigns including America's Cup and Grand Prix circuits. We collaborate closely with **Future Fibres**, allowing us to deliver cutting-edge, custom solutions – included **moulded end fittings** for safe, simple installation.

TRUSTED MATERIALS

We partner with **leading rope manufacturers** such as Marlow and Gottifredi Maffioli, ensuring every project uses top-tier materials, selected based on each specific application.

UNMATCHED TESTING CAPABILITIES

RigPro's **100-Ton test bed** is the only one of its kind in the industry. It allows us to validate break loads and simulate real-world fatigue – giving you confidence in every line, splice, and connection.

CUSTOM HARDWARE & BRANDING

From **Titanium Ferrules** and **dogbones**, **moulded end fittings** through to fully **deck hardware** packages, we offer the hardware that matches your specific needs. Using in-house **3D printing**, we prototype and refine components rapidly to meet your exact needs. Using specialist equipment, we are able to customise all hardware with your yacht's logo.

SMART RIGGING MANAGEMENT

Unique in the industry, our smart rigging digital labelling system provides unmatched transparency by allowing anyone to view running rigging details instantly, no login required. Integration with **RigPro Care** further empowers users with real-time access to rigging logs, service records, and condition alerts directly on their phone.

PARTNER IN PERFORMANCE

RigPro isn't just a supplier – we are your technical partner in maximising performance, reliability, and longevity on the water.
